

Electronic appendix 1 to:
Vincent Droissart, Olivier Lachenaud, Gilles Dauby, Steven Dessen, Gyslène Kamdem, Charlemagne Nguembou K., Murielle Simo-Droissart, Tariq Stévant, Hermann Taedoung & Bonaventure Sonké (2019)
Mine versus Wild: a plant conservation checklist of the rich Iron-Ore Ngovayang Massif Area (South Cameroon)

Plant Ecology and Evolution 152(1)

Appendix 1 – Exploration permits covering the NMA, with Iron ore and gold sampling target areas overlying aeromagnetic image. Areas richest in magnetic rocks, and targeted for iron mining, are in red; most of them are located at elevations above 500 m (gridded). This map was modified and adapted from Wendt (2012).
