

Supplementary file 3 to: Epiphytic diatoms on herbarium material from the Central Forest phytogeographic region of the Democratic Republic of the Congo

Alain Mosindo Okito, René Woto Oleko, Zoë Madder & Christine Cocquyt

Plant Ecology and Evolution 154(2), 2021

Supplementary file 3 – Ordination (relative genera abundances after square root transformation) showing the first two PCA axes. **A.** Distribution of the genera, abbreviated with the first four letters of the genera names. **B.** Distribution of the samples. The sample numbers given are with omission of the prefix YBI_ALG00 for YBI, and of CCA for BR.
